---

Dear Sir/Madam,

I am writing regarding the response from Wiltshire Council on 02/07/2019. In this document, the council proposes changes to the rights of way including AMES 11 and AMES 12.

These rights of way are valuable connections to the extensive BOAT network in the area and provide enjoyment for a wide variety of user groups. I object to the council's proposed amendments to the byways.

It is clear that the only reason for wanting these restrictions is to prevent people getting a free glimpse of their precious rocks. Most of us that use these routes have seen the silly rocks from these so-called vantage points many times and take little notice. It is unfair to remove access in this way for what is absolutely no gain whatsoever.

Regards,

John Newman
