---

During the dark winter months my wife travels this route to work.  
To get off the highly dangerous A303 in the dark and wet .

We also use this route on a regular basis to enjoy the wildlife and views .

Removing it as part of English Heritage stopping people seeing Stonehenge for free excuse. Which is referenced in the submittal is not really reasonable grounds to close a road that has been used for years.

Depriving the people from seeing the countries heritage without imposing a charge.  
For those unable to afford the fees ofEH and those physically unable to walk there.

Regards

Trevor tucker
