I strongly object to the application to reclassify or close the follow byways which has been added to the plan for the A303 tunnel. These byways have be used for many year with minimal impact on the surrounding area, I see no point other than to stop free access to the stones. As a child I was taken regularly to the hedge and have many happy memories and photos of the family with totally free access, this has now sadly been replaced by fences and charges.

These byways are a vital linkway to our remaining free access to our much loved hendge and surrounding countryside, as a local I frequently use the byways.
