Subject: Objection to byway reclassification

I strongly object to the application to reclassify or close the following byways which has been added to the plan for the A303 tunnel. These byways have been used for many years with minimal impact on the surrounding area, I see no point other than to stop free access to the stones. I regularly take my children along the byway to see the henge and have many happy memories there.

These byways are a vital linkway to our remaining free access to our much loved henge and surrounding countryside, as a local I frequently use the byways.
