---

I object to section VI. relating to the proposed handling of byways AMES 11 and AMES 12.

In particular the proposal by Wiltshire Council to move the fate of these culturally important roads to outside the DCO process appears an attempt to subvert the process. If WC wish to consider these roads on its own terms, it can do so at a later date. Although it will undoubtedly will face strong opposition and legal challenge. Their argument is in essence that these challenges are better dealt with separately, however removing issues that are seriously contentious to the public interest fatally undermines the DCO process.

With that in mind, I also lodge my objection to the closure, or restriction of AMES 11 and AMES 12. These are culturally significant and should continue to be enjoyed by the public at large.

Best regards,

Peter Jones
