Importance: High

Dear **A303 Amesbury to Berwick Down Case Team,**

Thank you, and we retain our absolute objection to this environmentally wilful destruction of a World Heritage Site, these stones have been there for 5000+ years and will be destroyed because the tunnel goes right under and stops short of a safe return to the surface, and the sheer volume of vehicles using it, but by going under it they'll miss the view that others get when travelling the A303 from the right angle and the right times! As we're now in climate emergency, this should never have been considered at all. It is also of great regret that the National Trust weren't able to object more strongly than they have done so far, instead of merely offering alternatives, they are the organisation responsible for its continued survival as protectors of our heritage for the nation.

It is very regrettable that due to time, distance and costs we'll not be able to attend the hearing, and we sincerely hope the consent will be refused if justice is seen to be responsibly dispensed.

Yours sincerely,
Mr. & Mrs. W. J. & S. M. Lodge
