**Subject:** A 303 bypass: Amesbury to Berwick Down  
**Date:** 20 August 2020 16:01:22

---

The traffic is unbelievable on the link between Stonehenge and the next bit of dual carriageway at the Wylde bypass - it can take a couple of hours to drive from Amesbury to Winterbourne Stoke and the frustration is awful. Thousands upon thousands of people are desperate. We living in Winterbourne Stoke are desperate

When we moved to Winterbourne Stoke in early 1980s, the road was pegged behind us out and Stonehenge was irrelevant ! For the sake of thousands upon thousands of people driving west/east/west, for the sake of Dorset, Somerset, Devon & Cornwall, please let there be a dual carriageway. There is a lot of space between the Stones and Larkhill. Just let something happen.. There have been so many expensive attempts over the last 40 years.
