The plan would allow massive road and tunnel excavation and result in the total destruction of the vast Stonehenge hinterland - just to speed up *traffic*?

That wanton destruction could not be undone... just think about that - and all for clamouring ignorant profit business?

If there *must* be deliveries of skip candyfloss F K C and toenail treatments via the A303 then a complete by-pass many miles removed should have money thrown at it? Or preferably abandoned altogether. In any case I thought the "nation" was hard up?

Already there seems a fashion for this totally incompetent "government" and its willing accomplices to authorize the ripping out of safety cats eyes - but this A303 latest wheeze ~ beggars belief.

Don't do it.
