Subject: Response to Redetermination of A303 Stonehenge road scheme
Date: 08 March 2022 14:19:11

Dear Sir/Madam,

re the Redetermination of A303 Stonehenge road scheme

I would like to object to this scheme. The World Heritage will be wrecked for no good reason and later generations will see this as a barbarian approach to our precious shared heritage.

Why hasn't the decision of the 2021 World Heritage Committee been taken into account?

Why haven't the construction costs been updated, along with the carbon assessment and costs?

Why haven't alternative routes been assessed properly, or other non-engineering measures?

Stonehenge is a sacred site and must be defended against this juggernaut of damage.

Regards,
Peter Croft
