I wish to make the following points of objection:

No changes were made National Highways to take the decision of the 2021 World Heritage Committee into account.

Have failed to address that the Secretary of State declared the impact on the area being cut through in the proposal as 'significantly adverse'.

Has not completely assessed alternative routes, e.g. the southern route which would be a cheaper option as well.

Has not updated the construction costs.

Has not properly safeguarded the world heritage site.

Not considered recent developments in the rising climate crisis or the Environmental Act 2021.

Hopefully, these concerns will be acted upon.

Stonehenge as a sacred site all visited from all over the world needs to be respected for all its ancient and present value as a World Heritage site.

With sincere regards,

Ursula Knapp
