To whom it may concern

I am deeply concerned that our heritage and archaeology around the acclaimed and world heritage site around Stonehenge will be lost forever should the road be upgraded to the underpass that is proposed. I travel the A303 along this stretch of the road often and recognise the impact the proposal will have. In addition it is quite clear that the traffic slows and clogs at this point because of people wanting to have a look.

With the recent IPCC report it would be a travesty to spend such large sums on road building, when an environmental solution such as blocking the view with landscaping and tree planting would be a viable alternative .

Please do not allow all of this road to happen
