Subject: Redetermination of A303 Stonehenge scheme

Dear Sirs,

I would like to express my concerns about the proposed revised A303 Stonehenge scheme, in particular with regard to the following:

1. World Heritage Site Committee views are not being taken into account
2. Alternative routes, though more difficult and costly, are much less damaging and should be considered very seriously
3. I believe there are serious environmental, climate change, and carbon footprint implications that will arise from the building of the scheme and with the faster and heavier traffic flows that will inevitably result

Please treat this email attachment as my individual response to your consultation

Yours sincerely,
John H Kenward MRCVS
