Subject: Redetermination of A303 Stonehenge road scheme
Date: 14 March 2022 09:00:08

I am writing to protest, in the most vehement terms, the redetermination of the A303 road scheme. I note that this revised scheme does not take into account the 2021 World Heritage Committee decision which notes the destruction that this scheme would cause to a World Heritage Site, nor the adverse impact on the western cutting area.

I note too that there are no updated construction costs, nor carbon assessment and costs — one might almost think that you're deliberately closing your eyes to the destruction you will cause — fancy that! — as well as deliberately flouting the required regulations.

Judith Flanders
