**Subject:** Redetermination of A303 Stonehenge scheme  
**Date:** 09 March 2022 08:30:34

---

Dear Sir/Madam,

Stonehenge is not only a landmark cultural site for Britain, but also a World Heritage site. In light of this and planned highway proposals I would just like to remind you that:

1. The Secretary of State found the Scheme's impact on the proposed western cutting area would be "**significantly adverse**";

2. National Highways has not:

- made any changes to the Scheme to take **the 2021 World Heritage Committee** [REDACTED] **into account**;

3. **Alternative routes less damaging to the World Heritage Site** e.g., a southern bypass route, have not been fully assessed and would be cheaper even if there might be some problems with it, while a longer tunnel would reduce impact on the World Heritage Site;

4. **Neither have there been explored alternatives to hard engineering** solutions in the context of safeguarding and enhancing the World Heritage Site - e.g. a package of measures to reduce road traffic, road emissions and improve access to the South West;

- updated the scheme construction costs; nor
- updated the carbon assessment and costs.

In view of the above points I would respectfully ask you to weigh all considerations carefully before making any decisions.

Kind regards,  
Suzanne Smith
