Subject: Redetermination of A303 Stonehenge scheme
Date: 12 March 2022 18:25:25

• **I have serious concerns about this project and feel it needs to be reassessed based on the following points:**

-
- **National Highways has not made any changes to the Scheme to take the 2021 World Heritage Committee [Decision](#) into account**
- It has not acknowledged that the Secretary of State found the Scheme's impact on the proposed western cutting area would be "**significantly adverse**";
- **It has not fully assessed alternative routes less damaging to the World Heritage Site** e.g., a southern bypass route would be cheaper even if there might be some problems with it, while a longer tunnel would reduce impact on the World Heritage Site;
- **It has not explored alternatives to hard engineering** solutions in the context of safeguarding and enhancing the World Heritage Site - e.g. a package of measures to reduce road traffic, road emissions and improve access to the South West;
- It has not updated the scheme construction costs
- It has not updated the carbon assessment and costs.

For all the above reasons I consider National Highways is acting irresponsibly and not considering options that would be less damaging to the World Heritage Site and more environmentally friendly.

From
Sarah Flynn
