Subject: Redetermination of A303 Stonehenge scheme
Date: 11 March 2022 16:04:32

Dear sirs

A number of important decisions/reports/acts have been made since the scheme was announced particularly regarding climate changes which need to be taken into account

- 2021 World Heritage Committee decision
- latest intergovernmental Panel on Climate Change report
- environment act 2021

There is urgent need to reduce emissions by reducing road traffic and carbon emissions.

Stonehenge as a World Heritage Site needs protection- all alternative options to safeguard and protect it should be explored and fully assessed to avoid damaging it.

Cost is not everything- once the damage is done there is no going back.

Thankyou
MaryClare Tucker
