Subject: Redetermination of A303 Stonehenge scheme - comment
Date: 10 March 2022 11:17:29

I confirm my objection to this scheme.

National Highways has failed to make any changes to the scheme that respond to the World Heritage Committee's decision that the scheme would undermine the case for the Stonehenge World Heritage Site Status.

National Highways has failed to acknowledge the Secretary of State's finding that the impact of the scheme would be 'significantly adverse'.

National Highways have failed to fully assess alternative routes less damaging to the World Heritage site.

National Highways have not updated the scheme construction costs, nor the Carbon Assessment.

National Highways have not aligned the scheme to the Environment Act 2021.

In my opinion, what is needed is significant and strategic action to reduce road traffic, not to facilitate more traffic.

Please reject this scheme.
