With regard to the National Highways report on the Stonehenge road scheme, I think that the report does not address any of the significant issues. The report has not fully assessed alternative routes less damaging to the World Heritage Site e.g., a southern bypass route which would be cheaper even if there might be some problems with it, while a longer tunnel would reduce impact on the World Heritage Site.

This is troubling as it risks irreparable damage to one of the most important historical sites in the world.

Richard Eden.
