Subject: Flawed Logic of Scheme
Date: 31 March 2022 12:28:54

Dear Planning Inspectorate, given the grave concerns expressed by the IPCC report, the urgent need to combat/ reduce emissions, the escalating costs of road infrastructure and engineering projects, of car/road use and of travel, the ambitions of the the Environment Act 2021, the failure and escalating costs of the project HS2 and its devastating impact on our remaining woods, habitats, landforms and livelihoods, the only sensible option would be to pull the plug on a scheme which will increase emissions, devastate a World Heritage Site, its landforms and biodiversity.

The fact that cost estimates have so far been omitted tells us everything we need to know about the scheme.

Yours,

Lou Stothard (co-founder, For Trees UK, Cttee member Community Planning Alliance).
