Subject: New National Highways Submissions.....
Date: 31 March 2022 10:54:37

Dear Sir/Madam,

Please re-examine this proposed new scheme for the following reasons.....

National Highways has not:

1. Made any changes to the scheme to take the 2021 World Heritage Committee decision into account.
2. Acknowledged that the Secretary of State found the Schemes impact on the proposed western cutting area would be “significantly adverse”.
3. Fully assessed alternative routes less damaging to the World Heritage Site eg a southern bypass route would be cheaper, even if there might be some problems with it.
4. Explored alternative to hard engineering solutions in the context of safeguarding and enhancing the World Heritage Site eg measures to reduce road traffic, road emissions and improve access to the South West.
5. Updated the scheme construction costs.
6. Updated the carbon assessment and costs.

I am formally requesting a re-examination of the Development Consent Order. This is because, in my opinion, the omission on current cost estimates, UNESCO’s position and new information since the Examination closed in October, 2019 are compelling grounds for a re-examination by an independent panel BEFORE the Secretary of State redetermines an application for a DCO for the very same road scheme.

Yours faithfully,
Caroline Cass
(Mrs)
