Dear sir or madam,

I am writing to you today to request that the following comments be included in the report on the proposed road by Stone Henge.

The National Highways has not made any changes to the Scheme and take the 2021 world heritage committee decision into account.

National Highways has not

- acknowledged that the Secretary of State found the scheme's impact on the proposed western cutting area would be 'significantly adverse'
- Fully assessed alternative routes less damaging to the World Heritage Site
- Explored alternatives to hard engineering
- Updated the scheme construction costs
- Updated the carbon assessment and costs

Other changes since the examination closed

- concern for climate change has increased with the latest Intergovernmental Panel on Climate Change report and the need to take urgent action to reduce emissions, not increase them as any new Stonehenge road scheme would; and
- the Environment Act 2021 sets new ambitions around nature recovery.

I am writing to ask for a re-examination of Development Consent Order

In my opinion the omission on current cost estimates, UNESCO's position and new information since the Examination closed in October 2019 are compelling grounds for a re-examination by an independent panel BEFORE the Secretary of State redetermines an application for a DCO for the very same road scheme

Yours faithfully

Louise Ismail
