Please don't defile what is Britain's equivalent of the Pyramids' our ancient history in stone,

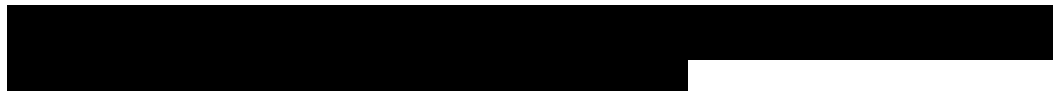

Only last week there was an hour-long programme on the BBC telling the history of those magnificent stones. I grew up in the West Country with Stonehenge not far from home. I take friends to visit. There's a huge list of current 2022 references on the web (attached). Please watch the BBC programmes and honour your past, mine too. Far more important than roads. We don't need to travel fast past our history.

Thank you

Susan Quick [REDACTED]
