I am writing to ask you to find an alternative to the awful plan to widen the A303 past Stonehenge. To my mind there should never have been a road that close to the henge in the first place! When I first saw how close it is I was truly shocked.

It is shameful that a unique, world famous, ancient site should be treated in such a fashion. I know it is a huge attraction, and rightly so, but it should not be endangered any further than it already is!

Please consider a less damaging alternative to the proposed butchery of such a wonderful site, or, better still, LEAVE IT ALONE!

Thank you. P. Thornton.
