Dear Sir/Madam,

Any proposal regarding Stonehenge faces difficulties. Here is a different proposal that can be considered. Let us start at the roundabout where the A360 intersects with the A303. The Stonehenge by-pass would begin here. From that roundabout proceed North to join the B3086. Turn right at the Packaway and proceed through Larkhill to join the A345 and then proceed southwards along Countess Road to the Amesbury roundabout so as to rejoin the A303. Yes, expense would be involved in making this route into a serviceable highway but I doubt that it would cost as much as the present proposal and most certainly would not be so destructive as what is proposed.

Yours sincerely,

Noel E. Boulting
