Planning Inspectorate Re A303Stonehenge

I am writing with my concerns that National Highways has not:-

1 made any changes to the scheme

2 has not fully assessed alternative routes that would be less damaging to the World Heritage Site

3 explored alternatives to the hard engineering solutions in relation to the context of safeguarding and enhancing the World Heritage Site

4 updated scheme construction costs or

5 updated the carbon assessment and costs.

I request a re-examination of the Development Consent Order as current cost estimates, UNESCO's position and the fact that National Highways

have not made any attempt to consider the five matters that the Transport Secretary asked National Highways to consider, namely:-

Alternatives

Policy

Carbon

Environmental Information, and

Any Other Matters.

Thank you for your consideration.

Sian Griffiths [Mrs]
