---

To The Transport Secretary

Dear Mr Schapps,  
Stonehenge and Salisbury plain are part of our heritage, recognized as a world heritage site. We are honour bound to pass them on to future generations.

Please REJECT the re-submitted A303 Stonehenge road widening scheme.

The applicant ,National Highways has not:-  
>>>made any changes to the Scheme to take the 2021 World Heritage Committee Decision into account;  
>>>acknowledged that the Secretary of State found the Scheme's impact on the proposed western cutting area would be "significantly adverse";  
>>>fully assessed alternative routes less damaging to the World Heritage Site e.g., a southern bypass route would be cheaper even if there might be some problems with it, while a longer tunnel would reduce impact on the World Heritage Site;  
>>>explored alternatives to hard engineering solutions in the context of safeguarding and enhancing the World Heritage Site – e.g. a package of measures to reduce road traffic, road emissions and improve access to the South West;  
>>>updated the scheme construction costs; nor updated the carbon assessment and costs.  
Other changes since the Examination closed:

>>concern for climate change has increased with the latest Intergovernmental Panel on Climate Change report and the need to take urgent action to reduce emissions, not increase them as any new Stonehenge road scheme would; and  
>>>the Environment Act 2021 sets new ambitions around nature recovery.

We need a re-examination of Development Consent Order

THEREFORE the omission of current cost estimates, UNESCO's position and new information since the Examination closed in October 2019 are compelling grounds for a re-examination by an independent panel BEFORE the Secretary of State redetermines an application for a DCO for the very same road scheme.

SAY NO,  
Yours,  
(Dr) Julia Gasper
