---

Dear Sirs ,

Although I live in NI I am very concerned about your plans to 'upgrade' (???) the A303 where it runs close to Stonehenge , a World Heritage site . This is 'cutting off our nose to spite our face ' , certainly as regards damage to tourism , the environment & nature in the area , not to mention the importance of the whole site to our history , especially of the now English People .

Please do not go ahead with the National Highways recommendation , the dubious advantage is not worth the sacrifice .

Colin.

Rev Colin Hall Thompson
