King Car has spoiled many scenic places in the UK. As a driver using this part of the 303 there is no problem with the traffic jams there. Not only do you get the best view of Stonehenge, it slows down the mad speeds we have become used to. So just leave it alone!

The Pyramids in Egypt are going to be bypassed by an eight lane highway. Unique archeological sites are being subsumed by acres of concrete. Let's not spoil the heritage we have
