Dear Sir / Madam

I travelled past the StoneHenge site yesterday following a short break in Somerset. It was uplifting to see such a fabulous view of the world heritage monument in all its glory.

I wish to add my serious concerns to the many thousands of people about the proposed tunnel and road 'improvement' scheme.

This sets a dreadful precedent, causes damage to the landscape and destroys the wonderful opportunity for so many people to experience a heritage site that belongs to us all.

Yours Faithfully

Margaret McNamara
