Subject: Objection to National Highways Planning Application for the A303 Stonehenge Area
Date: 03 April 2022 18:28:21

Dear Sirs,

I object to National Highways re-submission to The Secretary of State's rejection of their Planning Application regards the A303.

I base my objections on the following grounds:

National Highways has not:

- **made any changes to the Scheme to take the 2021 World Heritage Committee Decision into account;**
- acknowledged that the Secretary of State found the Scheme's impact on the proposed western cutting area would be "**significantly adverse**";
- **fully assessed alternative routes less damaging to the World Heritage Site** e.g., a southern bypass route would be cheaper even if there might be some problems with it, while a longer tunnel would reduce impact on the World Heritage Site;
- **explored alternatives to hard engineering solutions** in the context of safeguarding and enhancing the World Heritage Site – e.g. a package of measures to reduce road traffic, road emissions and improve access to the South West;
- updated the scheme construction costs; nor
- updated the carbon assessment and costs.

Other changes since the Examination closed:

- concern for climate change has increased with the latest Intergovernmental Panel on Climate Change report and the need to take urgent action to reduce emissions, not increase them as any new Stonehenge road scheme would; and
- the Environment Act 2021 sets new ambitions around nature recovery.

Therefore I request a re-examination of the Development Consent Order

Many thanks indeed

Paul (Comber)
