Dear Sir/Madam,

I support the Stonehenge Alliance and its expert advisors. I understand that they are preparing a full technical response.

I understand that National Highways has not fully assessed alternative routes less damaging to the World Heritage Site, or explored alternatives to hard engineering solutions in the context of safeguarding and enhancing the World Heritage Site.

National Highways has not acknowledged that the Secretary of State found the scheme's impact on the proposed western cutting area would be "significantly adverse". The proposed new dual carriageway would gouge deep cuttings into an internationally acclaimed archaeological landscape, threatening the very status of the World Heritage Site.

National Highways has not taken the 2021 World Heritage Committee Decision into account.

As an ordinary British member of the public, I object to permanent and irreparable damage being done to a site that is part of British pre-history/history, the very reason that it was made a World Heritage Site, to protect it for everyone.

Yours sincerely,

Anne Keeley
