Subject: Proposed road scheme for Stonehenge
Date: 02 April 2022 15:54:41

The scheme for building the proposed road past Stonehenge, the 'western cutting', has already been rejected. None of the original objections to the scheme have been addressed by National Highways: the damage to an archaeological site of global importance remains the same; alternatives to the route have not been assessed; there is not even a nod to the Environment Act of 2021 and the necessity to reduce road traffic.

Please ensure that there is a re-examination of the Development Consent Order by an independent panel before the application from National Highways comes before the Minister.

Thank you

(Dr) Margaret Deith
