---

To whom it may concern,

I am a concerned citizen writing to you with my rejection of the proposed road alongside this nations world heritage site.

I can not believe as a member of parliament you are considering this road. And the damage that will cause this national treasure.

The landscape around Britain you can not escape roads, which are becoming scars on the British landscape.

To even believe this is the right way forward Is absolutely shameful.

When money is involved and contracts for roads .. big business become blinded by greed and the consequences escape them. Shares in this road build, jobs it creates do not matter when such treasures are concerned.

Repair what you already have.

Once this road is built the damage is done.

This is a world heritage site including the surrounding British countryside. Do not destroy this site for future generations.

Roads cause

Noise pollution, air pollution, environmental damage, nature suffers, unsightly views of cars and the road when visiting the world heritage site. This proposed road is a mistake

Think of future generations, do not think of this road as the right decision.

Britain needs stone henge protected and the surrounding area protected

Kindest regards

Darren Mercer
