You say you want to protect the stones but they have survived 5,000years already. Youve tested the stones by drilling holes in them which will damage them then complain that theyre damaged. Leave the alone. Do not put a tunnel over them or over the road. Many people pay to see them and some people are able to see them for free. The world is for sharing not claiming and profiting on every small thing. We need something.

If you want to make a bigger road make it elsewhere. Further allong if you have to but leave Stonehenge out of it and stopped protending its for the good of the stones!

Thanks
Lydia Sheppard
