Dear Secretary of State

I write to request that you seriously reconsider the Development Consent Order for the above. Any new Stonehenge road scheme will inevitably increase carbon emissions in its construction and use at a time when the whole world can see the urgent necessity to reduce them.

It would be far better to leave the existing road as it is, allowing passing vehicles a brief view of the monument treasured by many, whilst at the same time reducing traffic by taking other measures to improve access to the South West.

Yours sincerely

Peter Woods
