What on earth are you thinking of?

If Egypt proposed a similar plan around/under the pyramids, there would be an international outcry at their folly. Similarly, Italy and the Colosseum.

Stonehenge is, like the above, a world heritage site. Why would you want to endanger it? There could be so much still to be found in the area and it would be lost if this plan goes ahead.

It's not as if there are no alternatives. Use them, [REDACTED]
