Ladies and Gentlemen!

Please protect and support something so famous and important as a world heritage like the Stone Henge.

The plans for the new road does not contribute to it.

I know I am not from Great Britain, but I am visiting often Britain and its gorgeous ancient monuments. I see myself as a world citizen and some heritages belong more to the global community than to a country itself. I mean this more on a mental than a physical level.

So please consider carefully and with the great responsibility you have the road planning.

Yours sincerely

Agnes Marr
