 - Asset Groups within or with a relationship to the WHS
 - Existing Building (8m – OS MasterMap)
 - Existing Woodland (10m – National Forest Inventory)
- Where traffic along the existing A303 is not theoretically visible, but traffic along the proposed A303 mainline is theoretically visible
- Where traffic along the existing A303 is theoretically visible, but traffic along the proposed A303 mainline is not theoretically visible
- Where traffic along the existing A303 is theoretically visible, and where traffic along the proposed A303 mainline is also theoretically visible

1) Zone of Theoretical View (ZTV) has been generated using Environment Agency digital terrain model which takes into account the screening effects of vegetation, buildings and other structures.
 2) ZTV based upon selected points at 25m intervals along the proposed alignment design with an observer height of 1.5m and an assumed HGV vehical height of 4m.
