---

To whom it may concern:

I feel that there is something seriously wrong with individuals, companies and governments who would consider disturbing one of the ancient wonders of planet Earth for any reason at all, especially for monetary increase or power. Of course, there are preferable alternatives. This site has previously been protected from tourists and others who might disturb its sanctity. What is conceived in secret will be disclosed, and the real reasons will be exposed to the people.

I plan to spread the word about this planned travesty in order to prevent disturbance of this site.

Cease and desist!
