A303 Amesbury to Berwick Down Case Team
A303Stonehenge@planninginspectorate.gov.uk

Objection to A303 Stonehenge Road Tunnel from Amesbury to Berwick Down.
Unique reference 20019215

I have previously objected to this scheme and I still do. Nothing in the latest submissions from the applicant, National Highways, has made me change my mind.

This country is billions of pounds in debt. A scheme such as this is totally unaffordable. This scheme will be a blot on the landscape and encourage extra traffic which will produce more carbon emissions at a time of increasing numbers of fires and floods worldwide, due to climate change. It is obtrusive. It will spoil a site of great historical importance and change the ambience of the site and our familiar view of the stones.

Yours sincerely

Joyce Field
