Dear Sirs

Thank you for your letter of 13th July 2022 from which I was pleased to note of the proposal to construct a two lane dual carriage way at Stonehenge in place of a tunnel.

For the past 40 years there has been constant discussion on various ways to provide much needed improvement to alleviate the regular traffic congestion at Stonehenge in investigating numerous alternative bypasses with the latest idea to build a tunnel. It has been stated many times that the most practical scheme would be to build a dual carriage way with many benefits. It would be very cost effective as well as being quicker to construct without adversely affecting the local infrastructure and avoiding the logistical problems the building of a tunnel would bring.

I would give my wholehearted support for a dual carriage and for the idea of a tunnel to be scrapped without further delay.

Sincerely

[REDACTED]

Brian C Thompson
