Dear Sirs

I refer to the Sec of State's request dated 20/6/22 for comment by 3/8/22 on the answers given by the project team.

To proceed with the ludicrous bored tunnel alternative is not only ridiculously expensive, disruptive and time consuming but will deny travellers that brief look at the stones as they crest the hill at Kings Barrows. The flyover at Countess roundabout would impact adversely on the Amesbury economy.

There should only be one alternative and that is to go ahead with the dual carriageway along the existing route as soon as possible. Let us not waste any more money trying to cater for idiosyncratic whims.

Yours faithfully

Sir Edward Antrobus
West Amesbury
