---

**To the Rt Hon Anne-Marie Trevelyan MP**

Others have given their reasons why it is not advisable to proceed with this scheme.

My main concern is that we are only just now beginning to unravel and understand the true meaning and significance and even dimensions of this site, re-thinking decades of second guessing by historians and archaeologists. The site should be respected and protected, and we should share the quest to understand its origins and true purpose alongside those investigating similar sites on the planet. This can only be to our long-term advantage at such a stressful time in our planet's life.

Please listen to others before it is too late.
