To the Rt Hon Anne-Marie Trevelyan MP

Madam,

In the wake of the points concerning UNESCO's Advisory Mission report on Stonehenge World Heritage Site, I agree with the Mission that at the very least the western limit of the tunnel should be extended to the WHS boundary.

Furthermore National Highways has simply reiterated many of the arguments it has raised previously to justify a scheme which is clearly unacceptable to:

- Government's independent specialist examiners,
- UNESCO's World Heritage Committee, and
- the former Transport Secretary himself who agreed with the examining panel that the scheme would be "significantly adverse" overall.

National Highways' response fails to alleviate any of the above concerns.

The High Court judgment quashed the DCO in part because the Transport Secretary had not given proper consideration to alternatives.

I continue to object to the proposals and hope that the scheme will be abandoned.

Should the Transport Secretary intend to proceed with the scheme, I trust that it will be subject of another formal public Examination so that all of the new information submitted by National Highways and others since 2020 may be fully and openly discussed, and taken into account and advised upon by the Government's independent Planning Inspectorate.

This exceptional site must be protected at all costs from completely destructive and unsuitable works.

Mme C Merle-Rémond M A
