Subject: Comments on the National Highways response.
Date: 25 September 2022 16:40:34

Dear Sirs,

Having read read the report of the Advisory Mission and agreeing with its principal finding, i.e. that the scheme would have an adverse impact on the OUV of the WHS and that a southern bypass should be further explored.

The Mission admitted that at the very least the western limit of the tunnel should be extended to the WHS boundary.

National Highways has simply reiterated many of the arguments it has raised previously to justify a scheme which is clearly unacceptable to: Government's independent specialist examiners, UNESCO's World Heritage Committee, and the former Transport Secretary himself who agreed with the examining panel that the scheme would be "significantly adverse" overall.

FurthermorrThe High Court judgment quashed the DCO in part because the Transport Secretary had not given proper consideration to alternatives.

In addition National Highways' response fails to alleviate any of the above concerns.

I therefore continue to object to the proposals and hope that the scheme will be abandoned.

Should the Transport Secretary intend to proceed with the scheme, I sincerely hope that it will be subject to another formal public Examination so that all of the new information submitted by National Highways and others since 2020 may be fully and openly discussed, and taken into account and advised upon by the Government's independent Planning Inspectorate.

A World Heritage Site should not be scarred in this way and I hope that it will be abandoned altogether.

Yours faithfully,

Dr Bernard Juby..
