---

I have read and understood proposals but am shocked that no notice is taken of the recommendations. This I am afraid is typical of your administration. Under Johnson and now Truss we have populist who play on our national identity. This does not work when you seek to trash the roots of that identity. This is world famous heritage site and to just hunker down and ignore advice is ridiculous. Your transport plans are anyway shambolic. Witness HS2 the great white elephant.

So please listen to reasoning and the people of this country.....both the living and the shades of those long passed.

I await a response

Regards

David Reddall
