Dear sir

I would like to continue to object to the proposed tunnel as I consider that it would be detrimental to the World Heritage Site and a waste of public money.

This is only one of many bottle-necks along this stretch of the A303, and easing congestion here will only worsen conditions elsewhere along the route.

Perhaps a better solution would be to remove the roundabouts at each end of this stretch of road, and put in slip roads and an underpass or flyover for the side roads.

Even better from the climate change perspective would be to improve public transport and discourage car ownership.

Regards
David Thurlow
