Subject: An objection.
Date: 26 September 2022 15:59:42

Pleas add my name to those who strongly object to the proposed development. It should be completely obvious that Stonehenge is a unique world heritage site, and that it is a wonderful asset for the UK.. As such we have a responsibility to preserve it for our children in the future. The proposed development is far too close, and although the financial commitment required for a better solution is considerable, we cannot get this wrong, and we will never be forgiven for providing a cheapskate solution to this situation. Please do the right thing.

Yours Sincerely John Kippin and Nicola Neate
