---

Dear Hon Anne-Marie Trevelyan,

I have have been driving along the A 303 many times over the years to and from Devon past Stone henge and find every time that this is a special place and needs and deserves protection. It may be a traficated area but it is a sacred site and deserves due respect as such. I much prefer to slow down when driving past the henge and acknowledge that this is a sacred site than the idea of having to drive through some sort of tunnel and bypass the henge unnoticed as I believe many drivers would.

I ask please that the A 303 remain as it is for future traffic and that NO tunnel be built.

Your sincerely  
Peter Brinch
