---

I concur with the principal findings of the Advisory Report and strongly agree that the proposed scheme would have an adverse impact on the OUV of the WHS and that a southern bypass should be further explored.

The whole landscape within which this World Heritage Site sits contributes to its beauty and value.

National Highways has not addressed pertinent concerns and has simply reiterated many of the arguments it has raised previously to justify a scheme which is clearly unacceptable to:

- Government's independent specialist examiners,
- UNESCO's World Heritage Committee, and
- the former Transport Secretary himself who agreed with the examining panel that the scheme would be "significantly adverse" overall.

The High Court judgment quashed the DCO in part because the Transport Secretary had not given proper consideration to alternatives.

I continue to object to the proposals and hope that the scheme will be abandoned.

Should the Transport Secretary intend to proceed with the scheme, I trust that it will be subject of another formal public Examination so that all of the new information submitted by National Highways and others since 2020 may be fully and openly discussed with the Government's independent Planning Inspectorate.

Yours sincerely,

Jennifer Hand
